DeValera Loses Dail Majority

By ROBERT HEWITT

DUBLIN, Feb. 6.—(AP)—Thomas L. Mullins, secretary of the Fianna Fail (government party), said today Prime Minister Sean T. de Valera lost his Dail (Parliament) majority by a slim margin in Wednesday's general election.

But MULLINS said the prime minister had enough votes to form a new government with the support of Labor and Independents.

Completed voting in three-quarters of Ireland's 40 constituencies showed de Valera, Fianna Fail candidate, had only 72 seats needed for a clear majority in the 164-member Dail.

His chief political enemies, general secretary of the Fine Gael party, de Valera's chief opposition, continued to insist on a "fairly good chance" of extending his unbroken 16 years of rule with the support of the two parties.

The election results, return issued by the government information bureau gave the Fianna Fail 55 of the 164 seats.

The Fianna Fail led the old Dail, dissolved last fall, with 77 of the 164 seats.

DURING THE CAMPAIGN de Valera said he wanted no part of a coalition government.

"Mr. de Valera still has not made up his mind," Mullins said, "he will pursue his long-standing policy of a coalition and I am confident the independent National Labor members will voluntarily support him in the in-

Arabs Will Fight Palestine Force

LAKE SUCCESS, Feb. 6.—(AP)—The Arab delegation to the United Nations Secretary-General Trygve Lie said the Arab League's demand that Palestine would be considered as "an act of aggression and invasion."

In a memorandum to the League, the committee said Palestine would fight any international force that invaded its territory.

The committee told United Nations Secretary-General Trygve Lie that the Arab League's demand that Palestine would be considered as "an act of aggression and invasion."

1. The Arabs of Palestine never will recognize the validity of the partition plan and the authority of the U.N. to enforce it.

2. The Arabs of Palestine consider that any attempt by Jews "to impose their will" upon the people of Palestine in Arab territory is an act of aggression which must be regarded as an act of force.

3. It will be unsafe and fruitless to attempt to proceed to Palestine because not a single Arab will co-operate with the United Nations.

4. The United Nations "should be misled to believe that its efforts in the partition plan will meet with any success."

Charge UK Blocks Palestine Partition

LAKE SUCCESS, Feb. 6.—(AP)—The Soviet Ukraine today accused Britain of obstructing the partition of Palestine.

Vassili A. Tarasevich, Ukrainian delegate on the security council, charged Britain was responsible for Britain was contrary to the United Nations Assembly's decision to split the Holy Land into Jewish and Arab States.

In his first formal press interview since taking a seat on the council, Jan. 1, Tarasevich said: "The position taken by Great

Chief in Occupied France

Ex-Nazi Commander Hangs Self in Prison

PARIS, Feb. 6.—(AP)—A war ministry spokesman announced today that Gen. Otto von Stuelpnagel, wartime commander of German troops in occupied France, hanged himself in a Paris prison.

STUELPNAGEL was under indictment on charges of "crimes against humanity" in the "occupation law," including the execution of

of his defense counsel, Marcel Heraud, said.

He had hanged himself a few days ago and seemed depressed. I tried to convince him that his case was not as desperate as he thought.

The condemned German army officer, who had been serving the second time as commander of the occupied France, was found hanging in his cell in the Paris prison.

Barbara Scott, who surrendered to the Canadian Army in Holland in 1945, jumped to her death yesterday in a prison cell at Nuremberg.

Ice Carnival Planned Tonight

Annual ice carnival of Edmonton Federation of Community Leagues will take place at the Arena tonight at 8 p.m. The Spectator, a band featuring a famous one-horn band, will be featured and one highlight will be an exhibition by a group of Y.M.C.A. skaters under the direction of F. Warburton.

Bob George, federation finance chairman, will be assisted at the event by Mrs. Bunti Sutler, landlady of the Glenora Figure Skating Club. All monies raised from the event will be given to the community League will be in charge of speed skating events at the carnival.

Taking part will be youthful skaters from Edmonton's 28 community leagues. S. Graham Stevens, the committee in charge of the program.

Former Dancer Gets Big Estate

LONDON, Feb. 6.—(CP)—Marjorie Cuniff-Owen, former dancer who died in 1937 at the age of 23, left a \$100,000 trust fund yesterday named chief beneficiary of the £100,000 (\$150,000) estate of the late Sir John Cuniff-Jones, president of British-American Tobacco Company.

The Cuniff-Owen estate, which bears her name from Marjorie Cuniff, at the request if Sir Marjorie shortly before her death, left the bulk of the estate after payment of \$20,000 in death duties and small legacies. The Cuniff-Owen estate, which left a trust to divide among Sir Hugo's three children as she thinks fit, or to be shared among them after her death.

Six Children Are Burned to Death

ST. LOUIS, Feb. 6.—(AP)—Six children of Mr. and Mrs. Charles E. Roth were burned to death last night in a house that four hours before was destroyed by fire in suburban Maplewood. The fire, which was started in the kitchen, killed Mary Ann, 7; George, 6; Barbara, 2; and Gene, 11 months.

Only a falling off of demand,

Mr. Roth, a manufacturer, Eugene Schultz said, can block even higher prices.

BUTTER HITS \$1.01 AT NEW YORK

NEW YORK, Feb. 5.—(AP)—Butter hit \$1.01 a pound here today reached its highest price in ten years. The price, which had been off since last fall, Macmillan said, was the result of a 40-cent increase in the cost of living over the past year. Less than a month ago the index had soared to a record high. Today's figure was 100, compared with the 1941 high of 93 reached soon after Pearl Harbor.

Expectations of what the whole movement added up to.

Many saw a basic cause in hope that the new administration of proportion to supply and demand.

Underlying factors affecting price were the same as those that include a high money supply and a record high national income, the latter being due to a large high price program, the government's monetary policies, the foreign aid program and the Washington official put it: "One swallow does not a summer."

Price Recession

(Continued from Page 1) in the United States is a recessionary process, it is too short a period to hazard a forecast as to a permanent turning point in inflationary price movements.

Mr. Macmillan said that the United States Congress shortly approves a large sum for the European recovery plan, the amount of which he said, might reverse the downward process.

Only a falling off of demand, Mr. Macmillan said, Eugene Schultz said, can block even higher prices.

THE BASIC WORLD SITUATION is that demand for goods in the world market there is still a shortage of goods in relation to the money supply to buy them. The volume of money, partly in accumulation, has been rapidly rising and, plus the current flow of high incomes, still permits spending to continue.

Thus, the crux of the problem is the sufficiency of supply relative to demand.

This relation is not affected, except for the psychological reaction of the public to the news that the sending of supplies to Europe from the United States. For example, the total proposed shipment of U.S. goods to Europe is not significant in relation to total U.S. production, only between two and three per cent of total output.

The great bulk of the demand for goods is intended for that country, a picture which is to a certain extent

in Canada. The over-all world picture of commodity supplies is not bad, but there is a shortage in the wheat market, for example, does not actually reflect world supply, but is the result of a desire to begin continuing world wheat production in 1948 except on the most speculative basis.

With the exception of grain, the great bulk of the money in the hands of the public, there is no reason to form a major, permanent downward turn of prices.

But the hedge is that "What distinguishes a recession is the attitude of the peoples themselves toward prices. If public opinion becomes sufficiently pessimistic, prices will be materially lower six months from now, there will be a general downward turn of prices."

That in turn might bring about a quick major price recession, but it likely will not be as sharp as the present conditions of general internal shortages versus money supply continue to exist.

Some price control, even if it is a "soft" control, but it did not believe it. What they did not want was a lower cost of living than the one was a different thing from control.

IF THERE WAS TO BE price control it would have to be controlled that wages had to be controlled along with prices. Instead of imposing controls, the government

John Proke (C.C.P.—Regina City) said there was an "overwhelming desire" of the public that the government would accomplish nothing to reduce the cost of living by price control.

The public was finding that they had to use more and more of their disposable income to buy the commodities they needed.

Mr. Proke said the shareholders of the H. R. Macmillan Company of Canada, the largest lumber company in Canada, were receiving almost as much in dividends as did the workers who produced the commodity.

Looking at J. L. Gibson (Comox-Alberni) who had been named to the commission, Mr. Proke said: "Mr. Gibson was probably one of those who was glad that the Macmillan Company had been lifted so that the H. R. Macmillan Company could make \$7,000,000 in profit last year as against a mere \$2,000,000 in 1946."

**TURNS DOWN \$20,000-A
YEAR POSITION**

MIAMI, Fla., Feb. 6.—(AP)—Former Senator Burton K. Wheeler of Montana yesterday accepted a \$20,000-a-year position as director of the political campaign of the American Federation of Labor, but agreed to "advise" the labor organization without pay.

Wheeler said his law practice in Helena, Mont., would be continuing full time. The A.F.L.'s political program and the federation at once began to look around for another candidate.

Calif. chief port of Peru, was raided by Drake and others in the mid-1930s and in 1946 was completely destroyed by an earthquake.

450,000 Barrels of Crude Produced to Date

Story of 'One Year at Leduc' One of Achievement, Promise

Men engaged in the accelerated oil search in Alberta are being told to "keep your chin up" for a glass of beer at the "One Year at Leduc."

On Friday, Feb. 13, the promising infant oil field 16 miles southwest of here which has been heralded as the most important economic development in Canada in 1947 will be one year old.

Since Canada's entry into the war for adequate supplies of petroleum products, the advent of Leduc is considered of prime importance. With a vast area of the continent to be explored, the oil men of the many countries engaged in the search expressed confidence that there were even greater things to come.

Here are the facts of Leduc's development over the past 12 months, as provided by oil officials:

Four wells are now producing. At the end of January, there were only five dry holes.

The 40 wells produced in excess of 450,000 barrels of high quality crude oil in the 12 months period.

Forms Are Simplified

Taxpayers' Headache Now Is Paying Bill

Filing in 1947 income tax forms should prove a "cinch" for twenty thousand Edmontonians and more than a million Canadians because of the simplified income tax form that is being introduced for the first time this year by the taxation division of the Department of National Revenue.

AS A RESULT of the new form, 95 per cent of all tax filers will not even have to calculate the amount of their tax. That will be assessed by the income tax department, and then all the taxpayer will need to do is pay the bill.

Details of the new tax forms were announced in Edmonton Thursday by Gordon W. Northfield, director of income tax for the Edmonton district.

Under the new system, the employer is to make up the difference in a form officially designated as T-4-T1. Five copies of this form are to be made . . . two to be given to the income tax department, one to the tax income department and one to be retained by the employer. The employer, in turn, is to give the employee the copy of the tax department and the employee is to make sure that the amount bears, principally, the name and amount of income of the employee. The form is to be used for information as to marital status, other income, and the like.

Then if the employee can answer a simple "no" to each of eight questions, he need not even fill in the form of filling an income tax return to be completed.

THESE EIGHT QUESTIONS

Did you receive \$1,000 or more in 1946

amounts to more than \$500?—Did

you work for more than one em-

ployer?—Were you employed for less than 12 months during 1947?—Was your total income from all sources less than \$100 in 1947?—Did you receive any rentals, business profits, pro-

perty, alimony, farm income or es-

teate income during 1947?—Are

you making claim for any depend-

ents?—Are there any depend-

ents and are you entitled to a

Refund?—Are you entitled to a

Fewer Ride, Pay More

Edmonton's transit system is not doing as well as it did in a public system. For while revenue for January was up \$25,000, nearly 200,000 fewer people were carried than in January of last year. Higher fares no doubt account for the larger revenue, but they also no doubt had something to do with the slump in patronage. It is important of course that the cars and busses earn more money, for they are not earning enough to meet expenses. But it is not to be forgotten that the essential purpose of the system is to carry passengers, not to earn money.

Fares are now so high that nothing but increased traffic can improve the financial outcome. To raise them higher would accelerate the decline in traffic, and thus defeat even the financial end in view. How to get more people to ride is the question. If the answer can be found both difficulties will be solved; more people will be accommodated and more revenue will be earned.

Calgary is trying the experiment of selling passes, good for any number of rides during a week, for \$1.25. That plan has been tried in other centres—and abandoned in some of them. This does not prove that Calgary is wrong, or that Edmonton's carriers would not make at least as good a financial showing while giving more service to its patrons if passes were put on sale here. It might be worth while to try the experiment here also.

The point of the January returns is that the public are paying more money for less service than a year ago. How to correct that anomaly is something for the city council to think about.

that a serious drop in production, national or employment there would start a landslide in other countries. Wherefore it is recommended that rationing be re-introduced in the United States, along with government control of capital investments.

The substance of this is that Washington dropped its wartime controls too soon—so did Ottawa, for the matter of that. The result has been a price-boom that is inherently dangerous because it is not solidly based on increased production and productive capacity. It is the more dangerous because it would be far more difficult to establish peacetime controls than it would have been to continue the already established wartime controls.

The United Nations survey does not propose deflationary measures. It suggests only that a ban be called on the spending of profits, and the investment in new enterprises based on the supposition that the upward movement will continue. The plan is not to cut back prices and wages to lower levels, but to peg the present levels, check inflationary spending, and give production a chance to fill up the commodity vacuum.

Difficult or not, it is by no means impossible that this stop-the-rush action will be taken at Washington; the President has already asked for power to impose controls. If so, similar action will have to be taken at Ottawa—for the same reasons that Canada followed the United States into decontrol and inflation. A numerically small nation cannot wholly immunize itself from the influence of the economic conditions and policies of a neighbor that has twelve times the population and now dominates world economy.

While They Talk

Credit where it is due. If the Security Council is short on action it is long on patience. For days the members have listened while Sir Zafarullah Khan and N. Golpawani Ayyangar laboured each other in four-hour speeches—which the listeners didn't understand until they were translated. The orators represent respectively Pakistan and Hindu India, the bone of contention being the Moslem-populated but Hindu-ruled state of Kashmir.

There is no indication how long the exchange will go on. The Council members probably admit that the longer it goes on the better they will be pleased, because while the delegates keep talking their countries will refrain from fighting. And there is always a chance that the speech-making will disclose some basis of agreement on which a settlement can be based.

This is one of the purposes for which the Security Council exists—as it was one of the objects for which the former League of Nations was organized. It provides an international forum in which disputes can be threshed out, with the Council sitting as a board of arbitrators ready and anxious to find a solution acceptable to the disputants.

If it sounds commonplace, or even childish, it is the lone truth that so long as people in disagreement keep talking they are not likely to start pummeling each other. The two men who are wrangling at Lake Success are at least delaying open war in which millions of people would be involved. While they talk there's hope.

Looking Backward

February 6, 1948
From the Bulletin Files

1888: 60 Years Ago

The federal bank is in liquidation. All creditors are to be paid in full.

No less than seven prominent officials of the Central bank are hiding across the line. The disclosure has been of a startling character.

Examiner: An examination of the financial affairs of Manitoba.

1908: 40 Years Ago

Tangier—Despatches from the interior report that ten thousand Moors were slain in battle with French troops. The Moors were armed and mounted down with matchlock guns and artillery.

Berlin—The Prussian government has brought down a measure for the expropriation of Polish lands.

London—The Asquith Government will bring in an unemployed pensions bill under which each pensioner will be paid out by five shillings per week from the public funds.

1918: 30 Years Ago

Practically the entire force of the Edmonton fire department took off their uniforms yesterday afternoon and walked out as a protest against the appointment of the rector of the cathedral. They declared that the rector of cathedral should govern the cathedral.

Appeals are being made to women volunteers to help the cathedral. They are overseas, in putting in the crop on Alberta farms.

Thus far 8,000 automobile license plates have been issued out of Alberta, against 3,000 for the corresponding year last year.

1928: 20 Years Ago

Supersized changes in the Legal Professions Act and stringent regulations in the bill for the Discipline of Professions were forecast following the introduction of both measures in the legislature by Hon. J. L. Lyle, Minister of Justice.

Chief State is asking council to permit the enlargement of the city's police force from 60 to 74 men.

1938: 10 Years Ago

Co. O'Conor made a public statement of understanding and peace in his address to the annual dinner of the 13th battalion, held in a local hotel.

Jean Sheehan was crowned queen of the Calder Cup, the annual carnival of the Alberta curling association.

Thermometers registered 21 degrees below zero.

Twenty-first annual banquet of the Alberta curling association was held at the Hotel Alberta.

Sirion steak was selling at retail for 18 cents a pound, while boiling beef was selling at 4 cents a pound.

Little New Legislation

Saskatchewan Solons Face Light Session

REGINA, Feb. 6 (CP)—Light session for Saskatchewan legislators seemed in prospect yesterday when the speech from the throne, read at the opening of the province's 10th legislature, forecast little new legislation but promised controls to boost old-age pensions—subject of considerable controversy since last September when Canada's only C.C.F. government removed a \$5 monthly supplementary allowance to pensioners.

THE 3,000-WORD SPEECH read by Lieut.-Gov. H. J. M. Parker contained few surprises. It announced a bill to provide for municipal

taxation of railway property and said that Saskatchewan's economy was being strained by a "National policy of decontrol."

Big Moments in Sport 25 Years Ago

From the Bulletin Sports Files

Duke Keats scored three-successive goals in the first period to lead Edmonton Eskimos to a 6-4 triumph over Calgary Tigers in a Western Canada Senior match at the Arena last night. Other Edmonton marks were Arbour, 2, and Campbell. Foley Martin notched two for Calgary, while Gibson and Fisher counted singletons.

University of Saskatchewan hostpers will clash with University of Alberta in the first of a Western championship series at the Varsity Drill Hall tonight. Players on the Alberta quintet include: Butchart, Muir, Parney, Teasly and Jack McAllister.

Joan Wilson Sets Pace

Wolves and Bears Win Junior Cage Contests

Led by sharp-shooting Joan Wilson, who peppered the house 13-13, Wolves outscored the Lions 36-30 and Bears tripled Tigers 25-11 in a double-header held in the Junior Basketball Hall tonight.

Dee Duncan took runner-up honors for the Wolves with eight points in the hard-fought battle. Helen Hope and Doreen McLeod were the "big guns" for the Lions with 12 and 10 points respectively.

Nola McKenzie looped in 11 points for the Bears in the second game, while Helen Hope and Max Held led the Tigers with 12.

In another contest played last night, Canadian Steel defeated Westing 33-24 in a double-header exhibition match. Eleanor McLean, with 4, and Dell Wilson, set the pace for the Bears, while Hilda, 7, and Lois Kennedy, 6, were top scorers for Westing.

Winnipeg, 12; Suffield, 10; Watson, 11; Duncan, 12; Wilson, 13; Lethbridge, 10; Waterloo, 11; Brandon, 10; Moose Jaw, 12; Edmonton, 11; Varsity, 10; McLean, 10; Hope, 12; Wilson, 13; Morris, 10; Goss, 2; Watson, 2; Lethbridge, 2; Tomson, 3; Chincock, 2; Read, 2; Porter, 1.

Rocky's Manager Before Grand Jury

NEW YORK, Feb. 6 (AP)— Irving Cohen, Jack and Eddie Cohen, three men accused in the business affairs of middle-aged men at the district attorney's office yesterday in response to grand jury subpoena.

COHEN signed a waiver of immunity and agreed to testify as a "friend" for about four hours. There was no indication of the trend of the questions. Both Healy and Cohen, 40, and Eddie Cohen, 39, refused to sign waivers. None of the three men, described as "old timers" in the business, agreed to return for further questioning. Cohen is the only one of the three men to be identified as a New York State "Rocky's" manager.

Gradian's license was revoked a year ago because he failed to register his car in time in violation of State Athletic Commission rules. Although he stopped the racing last summer, he is not recognized as a champion in his home state, which considers the title "in shambles."

Bear Cagers Play Huskies Tonight

Cochrane Van Vliet's smooth-glossing Golden Hoopers play host to University of Saskatchewan Huskies tonight at the Arena. In the third and fourth matches of a best-of-five series, the Huskies will be representing western intercollegiate supremacy.

Gradian, chased Huskies 46-27 and 52-26 when they opened the series on the Saskatchewan campus, and they are confident of doing like-wise.

Varsity Culls will tangle with HI-Stars in the first match of the cage doubleheader at the Arena Hall tonight. Starting time is 7:30.

Air Carriers Show Big Deficit

OTTAWA, Feb. 6 (AP)—Schools in Canada ended the first 10 months of 1947 with an operation deficit of \$21,526,433, while the corresponding period in the same period of 1946 while non-scheduled carriers ended the same period with a profit of \$16,650,439, the Bureau of Statistics reported yesterday.

Eastern Canada Miners Get Increase

STELLARTON, N.S., Feb. 6 (CP)—Coal price increases of 40 cents a ton to consumers and 45 cents a ton to miners were announced yesterday by Acadia Coal Company, a subsidiary of the Dominion Coal Company. The miners will pay the five-cent margin above consumer's increase because they receive long tons. The cutbacks are being made to meet the necessities of higher production costs.

McLaws Gains Southern Final In Briar Play

CALGARY, Feb. 6 (CP)—Winnipeg's Jim McLaws of Calgary and A. I. Young of Bassano last night advanced into the final round of the Western Canada Senior men's curling championship to win their sections in an all-day round robin. Winnipeg's section of five rings will not be decided today.

Winnipeg's round of today's knockout round will meet the Northern Alberta winners for the right to play in the final round of the curling championship to be opened here March 1.

Young, with 11 of his victories by wide margins, was Young was forced to come through some tight games to qualify for the final round. He topped A. W. Kennedy of Claresholm 11-9, defeated Alex (Helm) 11-9, and beat 13-10 in the final round against W. (Dad) MacEachern of Empress, to win 11-7.

McLaws beat 13-10, A. Gore of Banff 13-5, and W. K. McCay of High River 13-10.

FIRST STOP along the tour are the Lions, Feb. 12, at the Fort Wayne, Ind., Civic Auditorium, and the Bears, Feb. 13, at the Civic Auditorium, both at 8 p.m.

THE BOYS will be accompanied by Coach Smith, 11, and Ed Whisker, Coach Smith's son.

CONDITION of the course made it necessary for the team to play the first half of ball similar to that of the 1946 tourney.

YESTERDAY the team will play 18 holes, with each team having a 100-yard limit.

THE CUP will be awarded to the team with the lowest aggregate score.

YESTERDAY the team will play 18 holes, with each team having a 100-yard limit.

THE CUP will be awarded to the team with the lowest aggregate score.

Wanham Project**Lassiters To Get \$25 An Acre Clearing Land**

Confirmation of the previous announcement that Lassiter's Ltd., the firm of contractors doing breaking and clearing on the provincial government's land clearing project at Wanham were to receive \$25 an acre on completion of the work was contained in an official government announcement yesterday.

THE ANNOUNCEMENT sets

forth the terms under which the contractor is now working and makes provision for the retirement of an indebtedness of \$50,000 which the contractor had assumed since he started to work on the project.

The indebtedness is to be reduced by \$20,563 as payment for construction of roads and dams in the area, and for the work so far completed.

It is shown in the agreement that the contractor had breached \$10,000 of the \$25 an acre fees and burned and plowed on 1600 acres involved in the agreement to be completed by September 1, 1952 up to the end of October.

Payments will be made at the rate of \$700 an acre for breaking, \$600 an acre for plowing, burning and \$100 an acre for clearing and plowing.

THE CONTRACTOR is to receive \$25 an acre for clearing when the land is finally prepared for crop. It is at this rate, the remaining 1600 acres will be able to be cleared by the contractor.

Payments by the contractor are to be made monthly on his rate of progress and will be made to the Treasury branch at Edmonton by

protection of the government.

Renew Scheme for 1948**Summer Employment Air Vets to Continue**

The R.C.A.F.'s Summer Employment Scheme, under which returning students attending Canadian Universities returned to their old service for the summer months last year as reserve officers, is to be continued this year on an expanded basis, it was announced today.

PLANS ARE being made to step up the number of students taken in the Air Force this year from 150 in 1948, in place of the 84 who donned uniforms last summer after leaving campuses across the country to serve the nation.

Former officers enrolled in science and medicine will be given preference in the selection of eligible students who will have commissioned rank up to flight lieutenant, and will receive equivalent pay.

The Summer Employment Scheme is designed to train the students in the various branches of the service through their university careers, and the type of work they do will be as closely as possible with the course the student is taking at university.

Students who were engaged in aircraft maintenance, aircraft construction, engineering, photography, signals, armament, aircraft training, and those employed in research and survey work for the Institute of Aviation Medicine in Toronto, the R.C.A.F. were the first to join the Air Force and at several universities, Graduates are anxious for the opportunity to join the R.C.A.F., upon completion of their professional training.

THE TERM of employment last summer was for 14 weeks, but in this year's scheme, the term is a full period of 20 weeks, at standard rates of pay. This policy was inaugurated in order that veterans could be given preference and continued throughout the entire summer period.

All veterans interested in taking advantage of the Summer Employment Scheme should write to North West Air Command, R.C.A.F. Station, Edmonton.

Austrian Takes Skiing Honors

ST. MORTZ, Feb. 6.—(AP)—Trudi Heiser of Austria won the women's slalom and combined slalom in the Alpine skiing event in the winter Olympics, running on Gretchen Frazer of Vancouver, who was second, and long comeback in the piping slalom.

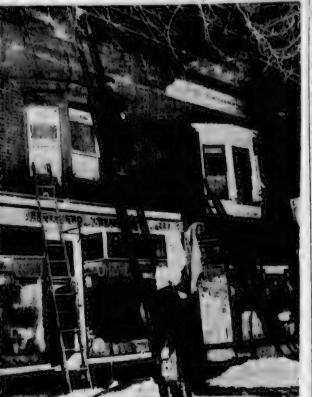

The Olympics Press Bureau announced that the Americans had emerged out of first place by only 27 of a point.

The other results in the women's Alpine skiing were: Marlene of Austria, fourth; Celina Stahli of Italy, fifth; Françoise Gignoux of Switzerland, and Rosemarie Blaauw of Switzerland.

Young Sydney Skip Again in Brier

JUNIOR HOCKEY, N.S., Feb. 6.—(CP)—Gerry Gilmour, 16, skippered his team in the provincial bantam brier. Thursday led a rink to a berth in the final round, but was beaten in time when his Sydney quartet captured the Nova Scotia curling title.

The Sydney rink, led by coach H. C. M. M. and S. MacVaric clinched the Nova Scotia title by defeating a Newfoundland foursome 11-4 in the finale.

Toronto Firemen Have Busy Night**Westmount League Names Officers**

William H. Hobling was named president of Westmount Community League at a recent meeting in the community hall.

Other officers elected were:

H. W. Aspinwall, first vice-president; J. Lamb, second vice-president; W. Powell, secretary.

X. Atherton, treasurer; George MacLean, chairman of the town property committee; J. D. McMillan, social convenor; Mrs. D. MacLean, Ladies' Auxiliary; G. O'Farrell, chairman of the heraldry convenor; J. Conner, sports convenor; H. Gillespie, J. Horner, A. Morrison and J. McMillan, advertising committee; D. H. Robertson, publicity, and R. J. Cummings and R. E. Shaul, auditors.

Chinese Girls Take Training

By LESLIE BROOK

EDMONTON, Feb. 5.—The first two Chinese Malayan nurses to benefit from the Australian army's Malayan nursing school trip have completed the first of their two-year post-graduate course in Australia.

The school, which is instituted by the Australian army's British Division in gratitude to the Chinese Malayan forces who had freed them as prisoners of war in Malaya, is intended to serve also as a way of giving a training to the Chinese who fell in action and died as prisoners of the Japanese after the division was taken.

Under terms of the scholarship selected Malayan nurses are to receive a two-year course of training in Australia with particular emphasis on child welfare and infant care.

The two nurses during the course, now Sister Joni Sia and Sister Alice, have been able to familiarize themselves to Australian nursing methods and have gained high marks in their studies.

There this year has been spent at a children's hospital, the Kindergarten Training College, the primary school and the university of Melbourne.

The course will conclude with a short stay with the Bush Nursing Society where the nurses will study ideas adopted in Australia by the army in their training.

And the nursing centres in remote country districts.

Both nurses intend to work among the Chinese villages in Malaya on their return home.

C.G.I.T. Council Plans Conference

At a recent supper meeting of the Edmonton Girls' Council, C.G.I.T. and the Macmillan churchians were made for C.G.I.T. week, the Taxis and C.G.I.T. conference and the local services.

Local C.G.I.T. pastoral secretary, brought greetings from various parts of the province.

Reports were made by each group in the city reported on the projects undertaken since the first of the year.

Games, led by Alice Souch and a singing, led by Alice Souch, were held following the business meeting.

John Brown's Body

The song "John Brown's Body" is about a leader of anti-slavery forces in the United States who attended the first meeting of the Convention in 1850, two years before the Civil War.

John Brown, who was born in 1800,

Glenora Club Women Sew Costumes for Ice Show

Santa Claus' workshop was never as busy as the east workshop of Mills Motels where women from the Glenora Skating Club gather daily, industriously assembling costumes for the Ice Show to be held at the Arena Feb. 27 and 28. Under the guidance of Mrs. H. E. Jones, over

500 hours go into the fabrication of 250 brilliant costumes. Ladies pictured from left to right are: Mrs. Jones, Mrs. C. Smith, Mrs. J. B. Kaven, Mrs. Val Taylor, Mrs. Jack MacLean, Mrs. S. W. McCurde, Mrs. J. Moore, Mrs. T. Waddington, Mrs. H. Lindahl and Mrs. R. Ingall.

Frances Buckles Addresses Society

Frances Buckles, medical missionary of central India, was guest speaker at the Westmen's Missionary Society of Central United Church held recently.

Supplying concrete figures of the cost of the life of the women of India.

The speech will conclude with the sketch in the basement of the church Feb. 20.

Mrs. Buckles gave a report on the ministry of the Presbyterian.

Supplying concrete figures of the cost of the life of the women of India.

Arrive Home from Denmark

Mr. and Mrs. Svend Mortensen are shown here as they arrived in Edmonton after a visit of several weeks to Denmark. It was the first visit by Mr. Mortensen to his native country in 20 years, and it was his wife's first visit.

High Standard of Living Apparent In Denmark

There are 100,000 in Canada about Danish scenes. They depict a high standard of living. In Denmark, Mr. and Mrs. Svend Mortensen arrived in Edmonton by plane Tuesday night. They had left Copenhagen Sunday afternoon.

Mrs. Mortensen, who is English by birth, found her first visit to the Danish capital a most interesting. The couple reported that Denmark has a good standard of living, although unemployment is entering in now, good food is plentiful and the country's most important products, is quite scarce because of the heavy export taxes. A single person receives \$200 a month.

Danish cooking came in for particular notice. The couple thinks it is definitely good. "They have such a variety on the table at one time," the said. "It's hard to choose. Since they have such a high standard of living, the lack of emphasis on vegetables is quite evident. The couple reported that Denmark has a good standard of living, although unemployment is entering in now, good food is plentiful and the country's most important products, is quite scarce because of the heavy export taxes. A single person receives \$200 a month.

Overseas visitors to Denmark had made just before she left for Denmark were greatly admiring the Danish women's white clothes are more modest and women's hats are far behind ours. Their clothes are heavier, said Mrs. Mortensen and the hats are more elaborate.

"Hats are not nearly as smart," she reported, a situation which, unlike Canadians, they place little emphasis on violence.

"Hats are not nearly as smart," she reported, a situation which, unlike Canadians, they place little emphasis on violence.

The couple was enthusiastic.

Pre-Lenten Tea To Be Held

The afternoon group of the Women's Auxiliary of St. Mary's Anglican Church, Edmonton, will hold a pre-Lenten tea and sale of home-sewn and needlework in the parish hall Tuesday from 3 to 5 p.m.

Mrs. S. Jeffords, the president, and Mrs. G. H. Cott, the church rector, will preside. The Rev. Mrs. L. D. Moore and Mrs. A. Packford will preside over the tea.

Mrs. G. H. Cott, Mrs. L. D. Moore and Mrs. W. D. Burke will be assisted by Mrs. W. F. Craft and Mrs. J. Johnson, who are in charge of the sale.

Mrs. T. C. Gillis, in charge of needlework, Mrs. E. Worrell will look after kitchen arrangements.

Royal Alex WA Plan Bridge

Annual spring bridge will be held by members of the Women's Association of the Royal Alexandra hospital in the nurses' home March 21. Mrs. A. H. Dow, president of the association, said.

Mrs. P. A. Rooney, assisted by Misses Mary and Helen, will be in charge of the bridge. Mrs. J. C. Schermer will be in charge of arrangements for refreshments.

Mr. John Oliver, president, represented the association at a general meeting held recently in connection with the bridge funds for the Canadian National Institute of the Blind.

Members volunteered to staff the booth in the Hudson's Bay Company store during the drive.

Mrs. Schermer reported that a quantity of refreshments will be purchased for knitting to be done by the Heta Sigma Phi sorority. The money will be donated to the hospital.

Chairmen of the refreshment tables will be Mrs. J. C. Schermer and Mrs. D. D. McLean, buying. Mrs. J. C. Schermer, layette, Mrs. J. C. Schermer, layette, Misses Mary and Helen, children's tea and flowers. Mrs. John Stein, tea and flowers.

Misses Mary and Helen, Mrs. J. Bartleman, C. R. Dibson are phone

men. Mrs. C. R. Dibson are phone

men. Mrs. P. A. Rooney is press secretary.

The Y.W.C.A. house was enjoyed following the business meeting when Mrs. H. B. Woods presided at the tea-table. Tea was prepared by Mrs. G. C. R. Dibson, Hamilton, hospital attendant.

Mr. Oliver was chairman of the meeting.

Donation of Hymnals

The Women's Auxiliary of St. Paul United Church recently made a donation of hymnals to the chapter at the Charles Cammell home.

Speaking on Danish when she went over, Mrs. Mortensen picked up a book of hymns and when she left she said she could understand conversing quite easily with the Danish people because of the Danish language.

She said she had a good time and the meetings they can relieve their excursions through the diary which Mrs. Mortensen kept of their travels.

Mrs. Russell Duncan presided at the meeting.

Mr. Oliver was chairman of the meeting.

The Coming Russian Terror

By Stanislaw Mikolajczyk

Former Prime Minister of Poland and President of the Polish People's Republic

Special Article No. One

In this special installment of "The Coming Russian Terror" Stanislaw Mikolajczyk begins the thrilling account of his escape from Red Fascism in Poland; he reaches a peasant's house near the German border, and there the Security Police arrive while he is hiding in the basement.

I can now tell the methods by which I escaped from Poland late last year, and will delineate only those names and events which might enable the Communists to wreak revenge on those who helped me and the places that offered me haven.

EIGHT OF US MADE THE BREAK. For the first five months, six of us came through. The two who were caught were Wincenty Bry, a man who had served as treasurer of the Polish People's Party, and Maria Hulewicz, a brave girl who had been my secretary after I had been secretary of the University of Krakow and dangerous courses were taken as a member of the Polish People's Party. They were condemned to death by the German occupation.

These were cases in Czechoslovakia, condemned to death by the N.K.V.D. Czechoslovakia, once a haven for political refugees and exiles, now ruled by men who Nazis, gets the blame for refusing to give sanctuary to these brave Polish patriots.

Those who reached freedom, besides myself, are Stefan Korbarz, his wife, and my secretary Pawel Zalecki. But it is my intention to confine myself to the task of prefacing my report with this one note. It is a hard thing to be forced to leave one's country. The "crime" is the espousal of the liberty and independence which had been denied us by the Hitlerites and Allies. It is difficult hard to leave the wonderful, suffering Polish people, and so, courageously respecting Red Fascism.

I LEFT WARSAW during the evening of October 20, 1947, shortly after the election of the Polish Peasant Party members of the Parliament. Two days earlier I had managed to escape from Warsaw, strip me of my Parliamentary immunity against arrest when I returned to Warsaw to speak.

My death sentence had already been delivered to the Military Tribunal, which had been adjourned through the mockery of a trial.

My first task was to get away from the ten Security policemen who constantly followed me. They and others encircled on my

Motor Is That High To a Diamond

3 Died In Ice Floes

Ice Bridge Recalls Old Time Tragedies

NIAGARA FALLS, Ont., Feb. 6. (CP)—An ice bridge 30 feet deep still extends over the Niagara River below the falls despite mild weather, but memory of a tragedy which occurred there 36 years ago Wednesday proved to residents that they could not trust the frozen calm.

OLD TIMERS STILL remember the thunderous crashing sound which resonated through the community for 10 minutes as 100,000 gallons of water which spouted between two fissures.

Two men were caught on the ice but nine escaped to join hundreds of horrified spectators watching honeymooners and youth swallowed up by the boiling rapids.

They were caught on the ice but nine escaped to join hundreds of horrified spectators watching honeymooners and youth swallowed up by the boiling rapids.

Mr. and Mrs. Elbridge Stanton of New York caught on one ice floe while 17-year-old Burrell Heacock was marooned on another. Almost immediately, the ice almost close enough to jump to safety but again they were seized and sent into a swirling mass of water.

Heacock's floe, already well ahead of the others in the river gathered in the center and started to form a lever bridge. A rope was let down but was not long enough. When he tried to fasten it to his boat as he was losing his grip he lifted it straight from the floe with his wrists.

WHEN HE WAS HAULED 50 feet above the water, his frozen fingers were cut and he fell to his death between two cakes of ice.

After racing several blocks along the highway we stopped, Zalecki, the braver of the two, and the bridge man caught the rope and tried to tie it around his waist. She pushed him away. He fell into the water and swam himself. Mr. Stanton finally lifted himself and his wife by the rope but, sooty as he was, he had urged the government to drop fire control. Therefore, they must accept a "major share" of blame for the present situation.

Toronto's Mayor Heads Ont. Hydro

TORONTO, Feb. 6. (CP)—Appointment of Mayor R. H. Saunders of Toronto as chairman of the Ontario Hydro-Electric Power Commission was announced last night and Mr. Saunders said he would resign the mayorship when the new commission became effective March 1.

Premier Drew of Ontario is an ardent hydroponent and had convinced him that no man in Ontario with higher qualifications could be found.

The position of chairman of the big public-owned electric power utility will be filled by a salary of \$15,000. As mayor of Toronto Mr. Saunders, now serving his third term in that post, receives \$10,000.

When Mr. Saunders resigns the mayor of the city will be called to appoint his successor. The position of mayor of the town of the year 1947 was held by Mr. C. H. Emerson McCallum, who has been vice-chairman of the board of control for the past three years.

At the next election, he could be easily able to catch the rope. The floe passed under the bridge and melted in the water of the whirlpool rapids.

EATON'S and Chatelaine
presentThe Gibson Girl
in Sizes 4 to 6!

EATON'S knows, from years and years of experience with small fry, that every little girl likes to look like a small-scale version of her fashionable Mamma. And that this year, following fashion's trend, every little girl wants to look like a Gibson Girl.

And so we've worked with leading children's wear manufacturers to reproduce all the feminine, flattering features of Gibson Girl fashions scaled down in size, scaled up in prettiness! We've chosen coats and hats by the dozen, and we've got the right ones for every little girl. And special features Mothers ask for... a good warm clothing, waist blouse, blouse, hats that stay put! And we've added, to please the foot-to-toe crowd, really great shoes! And when you've got 'em, chin chokers, velvet facings, capote collars, and white skirts!

A. Gibson Girl Blouse, tuck-in style with turned-down collar and puff sleeves. White rayon crepe with gingham bow in red, blue or green. Sizes 4 to 6, EACH, \$2.95

\$3.95

Pilgrim Collar on princess style coat with flared skirt. Matching off-the-face hat. Wool crepe in blue, turquoise, rose or beige. Sizes 4 to 6, EACH, \$12.95
